Authorized Service Representatives

- A Computrol appointed Authorized Service Representative (ASR) provides you with exceptional support with well-trained skills and professional knowledge of all our hardware and software systems
- Using an ASR to install and commission your system guarantees that it works in the way that you expect from the beginning and provides you with experienced technical after-sales support for the life of your system
- Protect yourself by using an ASR to install, commission, or service your systems, as this will validate and maintain your Computrol warranties
- You can easily obtain ASR support services across North America. Contact us to find your nearest ASR

Peace of Mind for Our Customers

Computrol is focused on providing robust and cost-effective systems through our extensive network of dealers and ASRs, who provide excellent sales and technical service. This network is backed up by our one-year warranty, our knowledgeable customer support technicians and our annual support and maintenance plans for end users.
